

Shiplap Application

Products: Stain&Seal®

step 1. After construction of the shiplap wall, lightly sand to remove any splinters or rough edges with 220-grit sandpaper.

step 2. Brush on a generous layer of Stain&Seal® in Williamsburg Blue.

step 3. Wipe in direction of grain with cheesecloth to reveal the underlying grain.

step 4. Allow to dry for 24 hours.

step 5. Stain&Seal® is self sealing for this application.

step 6. For added protection, a coat of Varnish Plus® in a dull sheen may be applied.
